karl barth's commentary on paul's epistle to the romans in its two editions 1919 and 1922 is one of the most significant works published in christian theology in the 20th century this book which landed like a bombshell on the theologians playground still deserves close scrutiny one hundred years after its publication in this volume new testament scholars philosophers of religion and systematic theologians ponder the intricacies of Barth's expressionistic commentary pointing out the ways in which Barth interprets paul's epistle for his own day how this actualized interpretation of the apostle's message challenged the theology of Barth's time and how some of the insights he articulated in 1919 and in 1922 have shaped christian theology up to our day with his commentary the young swiss pastor paved the way for a renewed intensely theological interpretation of the scriptures the volume thus centers on some of the key themes which run

through Barth's commentary faith as divine gift beyond any human experience or psychological data the Easter event as the turning point of the world's history God's judgment and mercy and God's one word in Jesus Christ this volume represents a major contribution to the interpretation of Karl Barth's early thought
