explains theories relating to the creation of the universe including kepler s three laws of motion einstein s theory of relativity and the steady state and big bang theories

robert greene baptised 11 july 1558 died 3 september 1592 was an english author popular in his day and now best known for a posthumous pamphlet attributed to him greenes groats worth of witte bought with a million of repentance widely believed to contain an attack on william shakespeare robert greene was a popular elizabethan dramatist and pamphleteer known for his negative critiques of his colleagues he is said to have been born in norwich he attended cambridge receiving a ba in 1580 and an m a in 1583 before moving to london where he arguably became the first professional author in england greene was prolific and published in many genres including romances plays and autobiography

robert greene contemporary of shakespeare and marlowe and member of the group of six known as the university wits is the subject of this essay collection the first to be dedicated solely to his work although in his short lifetime greene published some three dozen prose works composed at least five plays and was one of the period s most recognized even notorious literary figures his place within the canon of renaissance writers has been marginal at best writing robert greene offers a reappraisal of greene s career and of his contribution to elizabethan culture rather than drawing lines between greene s work for the pamphlet market and for the professional theatres the essays in the volume imagine his writing on a continuum some essays trace the ways in which greene s poetry and prose navigate differing cultural economies others consider how the full spectrum of his writing contributes to an emergent professional discourse about popular print and theatrical culture the volume includes an annotated bibliography of recent scholarship on greene and three valuable appendices presenting

apocrypha edition information and editions organized by year of publication

the 48 laws of power by robert greene summary analysis preview the 48 laws of power by robert greene is a self help book offering advice on how to gain and maintain power using lessons drawn from parables and the experiences of historical figures power depends on the relationships between a person and those he or she seeks to control powerful people must cultivate their appearances to earn respect and eliminate doubt they must practice selective honesty misdirection and an excess of secrecy to gain a tactical advantage timing is central to maintaining power as is the ability to adapt the array of strategies available when seeking power include mirroring the opponent s actions and controlling the opponent s options for action the powerful must also cultivate a relationship with audiences by creating spectacles and feeding their need to believe in the impossible please note this is key takeaways and analysis of the book and not the original book inside this instaread summary of the 48 laws of power overview of the book important people key takeaways analysis of key takeaways

when planetomachia was published in 1585 greene himself always the best advertiser of his own books promised his readers a perfectly balanced diet of edification and entertainment he described his newest offering as an astronomical discourse on the nature and influence of the planets interlaced with pleasant and tragical histories which one could ostensibly use as a manual to identify various planetary influences on natural constitution in this first complete critical edition nandini das presents planetomachia as a complex hybrid which is eminently a product of its times exploring how the two very different intellectual and cultural spheres of humanist scholarship and renaissance popular print engage in an intriguing albeit uneasy dialogue to produce this unique work of prose fiction the volume gives a clear sense afforded by no other existing edition of the intellectual climate which shaped this text it offers substantial introductory material on biographical literary and scientific contexts and extensive annotation identifying greene s allusions and elucidating his vocabulary it also includes translations and extracts from significant sources along with a bibliography of relevant primary texts and critical work on greene generally and on planetomachia in particular
